

Blackwater Mine

Notification

From: Melissa Barcellos, Senior Manager, Communities

Date: August 7, 2026

Subject: Blackwater Project Transmission Line Deficiency
Improvements

No. of Pages: 1

Attention: Stakeholders and Tenure Holders in the Blackwater Mine Transmission Line Area

We are writing to inform you that BW Gold will be conducting transmission line work to address outstanding project deficiencies between **August 18 and September 11, 2026**, at points along the length of the transmission line corridor.

To facilitate this work, temporary access points along the transmission line corridor will be reinstated to provide access for crews and equipment. Once these activities are complete, the access points will be deactivated and the affected areas restored, as appropriate.

The work will be carried out by **Arctic Arrow** and will involve the use of heavy equipment within the transmission line corridor. During this period, stakeholders may notice increased vehicle and equipment traffic in the area. Every effort will be made to minimize disruption while ensuring the work is completed safely and efficiently.

If you have questions or concerns related to these or any other activities, please contact the undersigned, call the community office at 250-567-3276, or utilize the community feedback mechanism at artemisgoldinc.com/communityfeedback.

Sincerely,

A handwritten signature in black ink that reads 'M Barcellos'.
