

# Blackwater Mine

August 15, 2023

Dear Sir or Madam:

**RE: Commencing Blackwater Mine Transmission Line Construction**

We are providing notification that construction of the Blackwater Mine transmission line (TL) may commence as early as September 15 and be completed in the fall of 2024.

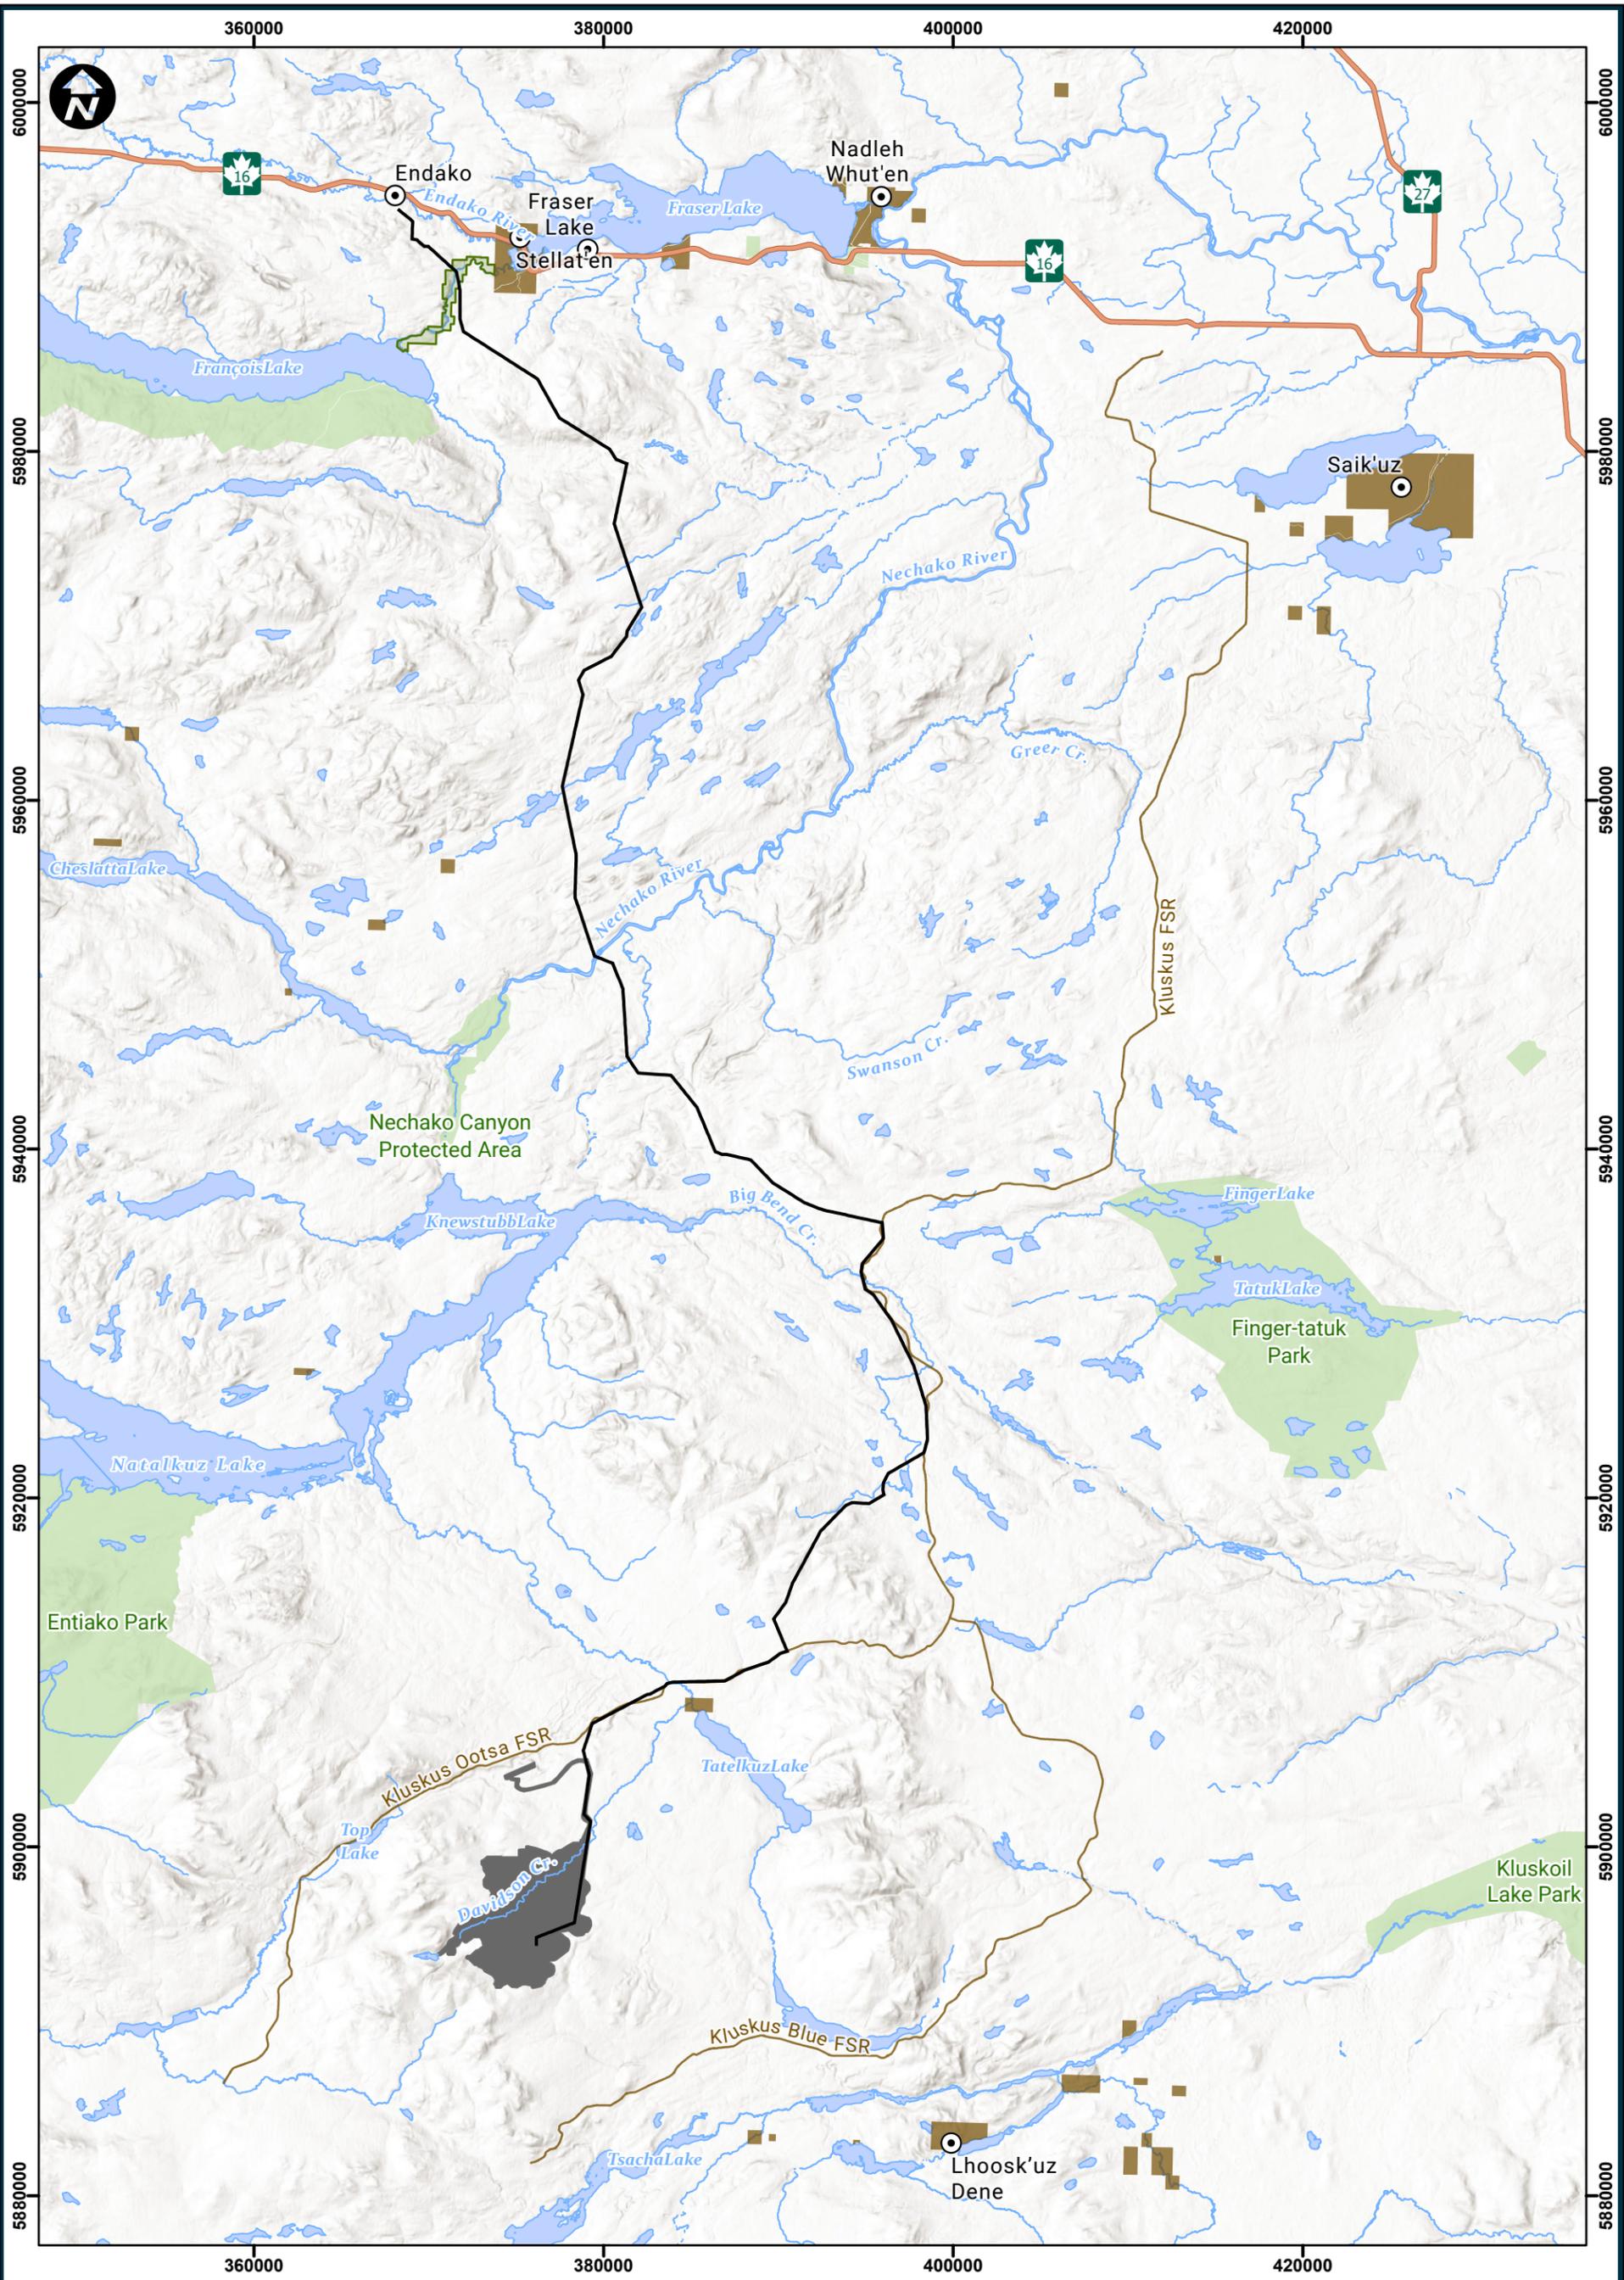

Activities during the construction phase will include: logging and clearing, access trail development, the re-establishment of roads, pole installation, conductor and fibre stringing, electrification, and implementation of access control measures. At this time, no road closures are planned during TL construction.

For additional information regarding TL construction activities, information on the TL management plans and mitigation measures, and other additional documentation, please visit: <https://blackwatergoldmine.com/> and sign up for email notifications to be made aware of new website content or updates to project materials such as schedules and work plans.

Feel free to email [office.blackwater@artemisgoldinc.com](mailto:office.blackwater@artemisgoldinc.com) or phone 250-567-3276 if you have any questions.

Yours truly,

Val Erickson
